Overview of POS Audit Reports

The POS Audit Report's provide further analysis to be made on till transactions either locally in the branch or in head office for all branches.

The additional analysis that this report provides is;

- Refund Report
- Void Receipts Report
- Cancelled Receipt Report
- Deleted Lines Report
- No Sales Report
- PGR Sales Report
- Discount Report
- Personnel Sales Report
- Pick Up Report
- Transaction Report

The data included in this report is dependent on the report that you have selected.

Please note: It is only possible to run one report at a time.

Important Notes on running;

- If this report is to be run instore, then the branch must be running on an SQL database.
- Frame Network needs to be installed on any workstation that these reports are to be run on.

Basic filters for running each report

Each report uses the same header filters as basic filters for the data.

The screenshot shows the 'Report Selection' section with two date pickers: '23/05/2011' and '23/05/2016'. A red circle highlights these date pickers. To the right, there is a 'Branch No' dropdown menu. Further right, there are buttons for 'Fill Grid' and 'Clear Grid', which are also circled in red. Below these are buttons for 'Clear all filters' and 'Print Grid'.

Report selection:

The screenshot shows the 'POS Audit Report' window. The 'Report Selection' section has a date picker for '23/05/2011' which is circled in red. A calendar is open, showing the month of May 2011, with the date '23' highlighted. The 'Branch No' dropdown is also visible.

This allows a date range to be entered that analysis should take place between. It is possible to manually type in the date or to press the drop-down arrow to bring up a calendar to select from.

The screenshot shows the 'Report Selection' section with two date pickers: '23/05/2011' and '23/05/2016'. A red circle highlights the 'Branch No' dropdown menu.

ONE branch number can also be added as a filter. If the branch number dropdown is left blank, the all branches will be included in the report.

Report generating and clearing buttons:

The screenshot shows four buttons arranged in a 2x2 grid: 'Fill Grid', 'Clear Grid', 'Clear all filters', and 'Print Grid'.

Fill Grid: Generate the report

Clear Grid: Clear the data from the report

Clear all filters: Clear any additional filters that have been added to the report. Is only used once the report has been generated

Print Grid: Print the report. This will only be available once you have generated your first report

Report generating and examples

Refund Report

This report provides analysis on refunds that have been processed through the till.

To generate;

1. Enter date and branches filters
2. Press the [FILL GRID] button
3. The following fields will be populated:
 - Salesperson
 - Salesperson Name
 - Branch No
 - Till No
 - Receipt No
 - Payment Type
 - Value
 - Ref No
 - Item Description
 - Date
 - Time
 - Reason
 - Transaction Type
 - Customer No
 - Original Receipt Details
 - Original Receipt Payment Type

4. Apply and further filters that you require

What does it mean if a transaction is highlighted red?

If a line is highlighted red, then it indicated that the payment type used in the refund does not match the payment type used in the original receipt if they have been linked.

In the example above, the customer originally paid with cash but the money was refunded on to a credit card.

Void Receipts Report

This report provides analysis on voided receipts that have been processed through the till. This is a receipt which was processed fully through the till, however after being completed is cancelled.

- This report will be blank for most companies

To generate;

1. Enter date and branches filters
2. Press the [FILL GRID] button
3. The following fields will be populated:
 - Salesperson
 - Salesperson Name
 - Branch No
 - Till No
 - Receipt No
 - Value
 - Date
 - Time

4. Apply any further features that you require

What does no discount reason mean?

A line will show as 'No Reason' due to one of the following reasons;

- a) You have your till set-up so the staff do not need to capture a reason
- b) You have promotions set up without a reason code in the following modules on your system; Promotion Qty & Price, Promotion Mix & Match, Promotion on Total, Discount Rules.

Personnel Sales Report

This report provides analysis on transactions that have been linked to a Personnel Address.

To generate;

1. Enter date and branches filters
2. Press the [FILL GRID] button
3. The following fields will be populated:
 - Salesperson
 - Salesperson Name
 - Branch No
 - Till No
 - Receipt No
 - Employee No
 - Employee Name
 - Payment Type
 - Item Description
 - Ref No
 - Qty
 - Unit Value
 - Total Value
 - Date
 - Time
 - Transaction Type

4. Apply any further features that you require

Please Note: The use of this report is dependent on how you capture staff sales. If you apply a staff discount, without attaching a personnel address (in the same way that you would a customer address) to a transaction, then this report will not generate any information.

Pick Up Report

This report provides analysis on pickups, drop-offs and POS Reports carried out on the till.

To generate;

1. Enter date and branches filters
2. Press the [FILL GRID] button
3. The following fields will be populated:
 - ☐ Salesperson
 - ☐ Salesperson Name
 - ☐ Branch No
 - ☐ Till No
 - ☐ Receipt No

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report
Salesperson									
Salesperson Name									
Salesperson: 1 Number of No Sales : 13									
Salesperson: 2 Number of No Sales : 639									
Salesperson: 3 Number of No Sales : 447									

Sort by Value and Sort by Count: Once the “Group by Salesperson” option has been selected, the following boxes will then be made available to sort the list by.

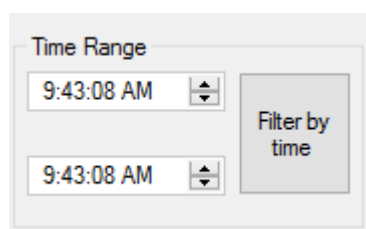

Expand all Groups: The sub total by salesperson remains, however the detail of each transaction is now made visible again underneath.

The screenshot shows the 'Report Selection' and 'Summary Options' sections. In 'Summary Options', the 'Expand all groups' checkbox is checked. Below this, a table lists salesperson data. The first group, 'Salesperson: 1 Number of No Sales : 13', is expanded, showing a list of transactions with columns for Salesperson Name, Branch No, Till No, Receipt No, Date, and Time. The second group, 'Salesperson: 2 Number of No Sales : 639', is collapsed.

Time range:

This becomes available once the report is generated.

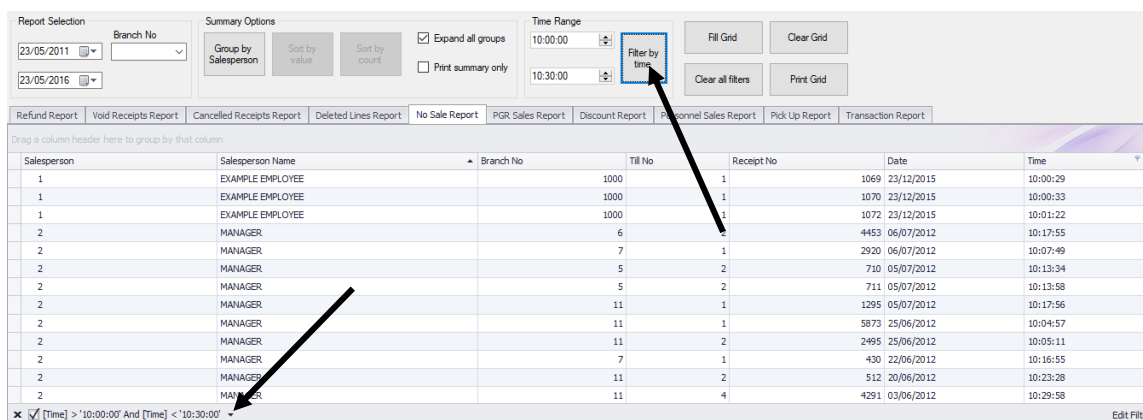

The 'Time Range' section shows two time input fields, both set to '9:43:08 AM'. To the right is a button labeled 'Filter by time'.

This allows a time range to be entered for analysis. It will default to the present time on your workstation.

To change the time, either manually type in the field, or select the digits that you would like to change and use the arrows buttons.

To apply this filter the “Filter by Time” button must be pressed.

Once it has been applied, the button will be surrounded by a blue box and there will be a filter apply line at the bottom of the report.

The screenshot shows the 'Filter by time' button highlighted with a blue border. Below the table, a filter line is visible: 'x [Time] > '10:00:00' And [Time] < '10:30:00''. An arrow points from the 'Filter by time' button to this filter line. The table below shows a list of transactions with columns for Salesperson, Salesperson Name, Branch No, Till No, Receipt No, Date, and Time.

Please note: The time period used is dependent on your workstation settings. This means it can be run as a 12-hour clock or a 24-hour clock.

Additional filters in the columns

Within the actual report, it is also possible to apply further filtering on certain columns. The options include;

Simple column ascending or descending sort

This can be done by simply doing a left hand click on a column that you would like to sort the data by.

The first click will sort ascending (1 > 1000)

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report
Drag a column header here to group by that column									
Salesperson	Salesperson Name	Branch No	Receipt No	Date	Time				
2	MANAGER	2	1	3071	27/06/2012	10:24:15			
2	MANAGER	3	3	4889	29/06/2012	10:04:36			
2	MANAGER	3	3	4890	29/06/2012	10:07:26			
3	SUPERVISOR	4	1	4815	06/07/2012	10:03:19			
3	SUPERVISOR	4	1	4821	06/07/2012	10:27:55			
3	SUPERVISOR	4	2	3	06/07/2012	10:02:25			
3	SUPERVISOR	4	2	13	06/07/2012	10:26:31			
3	SUPERVISOR	4	1	4505	05/07/2012	10:02:18			
3	SUPERVISOR	4	1	4507	05/07/2012	10:01:39			

The second click will sort descending (1000 > 1)

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report
Drag a column header here to group by that column									
Salesperson	Salesperson Name	Branch No	Receipt No	Date	Time				
1	EXAMPLE EMPLOYEE	1000	1	1072	23/12/2015	10:01:22			
1	EXAMPLE EMPLOYEE	1000	1	1070	23/12/2015	10:00:33			
1	EXAMPLE EMPLOYEE	1000	1	1069	23/12/2015	10:00:29			
2	MANAGER	12	2	1597	31/05/2012	10:15:23			
2	MANAGER	12	2	1596	31/05/2012	10:12:15			
2	MANAGER	12	1	5659	31/05/2012	10:12:30			
3	SUPERVISOR	11	4	763	08/05/2012	10:09:16			
2	MANAGER	11	4	758	08/05/2012	10:03:25			

The third will return to ascending.

It is only possible to sort by one column at a time. If you click on another column, the report will only be sorted by that column.

Further detailed column filtering

Further detailed filters can be applied by doing a right-hand click in the column (try clicking over the name), which are similar to excel filters.

Refund Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report					
Drag a column header here to group by that column									
Salesperson	Salesperson Name	Branch No	Receipt No	Date	Time

Filter Editor...

Show Find Panel

Show Auto Filter Row

Examples of some of these are on the next pages using the Branch No column as the filter.

- Group by this column

This groups the report in a similar way to the “Group by Salesperson”.

The column you have decided to use will be pulled into the top of the report and is available to click to sort ascending or descending.

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report
Branch No									
Salesperson	Salesperson Name	Till No	Receipt No	Date	Time				
Branch No: 1000 Number of No Sales : 3									
Branch No: 12 Number of No Sales : 3									
Branch No: 11 Number of No Sales : 21									
Branch No: 9 Number of No Sales : 5									
Branch No: 7 Number of No Sales : 2									
Branch No: 6 Number of No Sales : 2									
Branch No: 5 Number of No Sales : 2									
Branch No: 4 Number of No Sales : 10									
Branch No: 3 Number of No Sales : 2									
Branch No: 2 Number of No Sales : 1									

It is possible to clear the filter by clicking and holding on the column, then dragging it to where you would like it to appear in the report.

- Hide Group by Box

This will remove the drag column header box above the report;

Visible

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report

2	MANAGER		1	258 06/01/2014	17:21:03				

- Column chooser

This will bring up the customization screen. Any additional column that are available (but not visible in the report) will be listed here.

They can be added to the report by double clicking, or clicking, holding down and dragging to where you would like it to appear in the report. The option will then be removed from the list.

- Best Fit

This will take a column from being either too big or small for the data it contains;

Salesperson Name	Branch No	Till No	Receipt No
EXAMPLE EMPLOYEE	1000	1	
EXAMPLE EMPLOYEE	1000	1	

And resize the column to the data it contains.

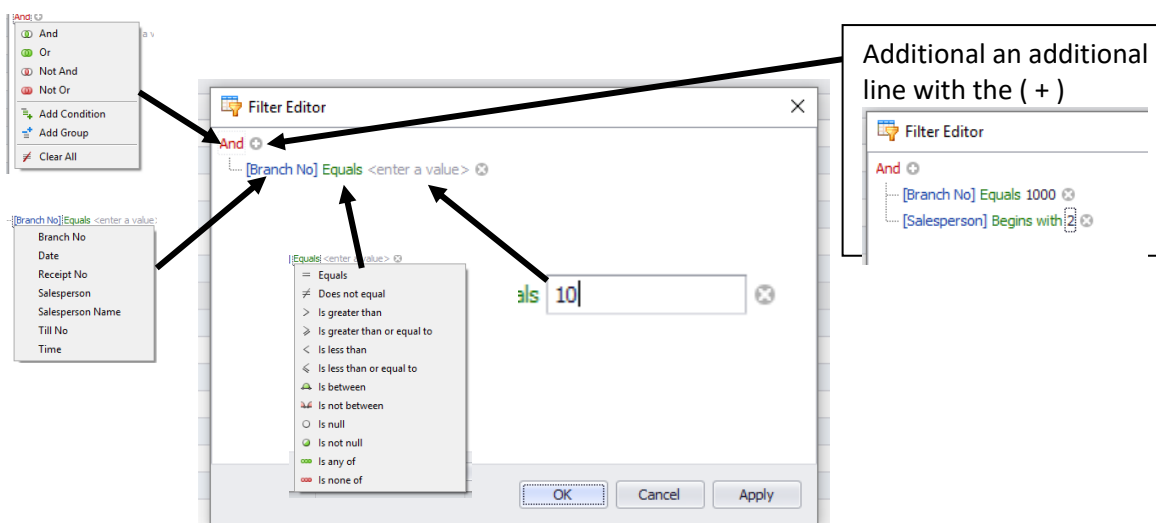

Salesperson Name	Branch No	Till No	Receipt No
EXAMPLE EMPLOYEE	1000	1	
EXAMPLE EMPLOYEE	1000	1	

- Best Fit (All Columns)

Similar to 'Best Fit' but will apply it to all columns and apply the logic for the width of the page also.

- Filter Editor....

This will bring up a Filter Editor window which allows you to enter a string of more detailed filters on a column. By clicking on each entry, you can bring up a list of options to choose from.

- Show Find Panel

This will bring up a box which enables you to enter information that you would like to find the report. When [FIND] is selected, the only entries with this information will appear AND it will be highlighted yellow. Press [CLEAR] to remove the filter.

1000	1	EXAMPLE EMPLOYEE	1	480	03/09/2014	22:07:40			
1000	1	EXAMPLE EMPLOYEE	1	477	17/08/2014	17:17:30			

Simple column option filter

By clicking on the 'funnel' in the top right-hand corner or a column header, you can bring up a list of field values that you are able to filter the report by. (E.g. for 'Branch No' it will ring up a list of the branch number currently available in the report).

Refund Report	Void Receipts Report	Cancelled Receipts Report	Deleted Lines Report	No Sale Report	PGR Sales Report	Discount Report	Personnel Sales Report	Pick Up Report	Transaction Report
Branch No									
Salesperson Salesperson Name Till No Receipt No Date Time									
Branch No: 2 Number of No Sales : 49									
Branch No: 3 Number of No Sales : 62									
Branch No: 4 Number of No Sales : 127									
Branch No: 5 Number of No Sales : 44									

You can click on either one value that you would like to view the data for.

OR

Custom AutoFilter

Show rows where:

Branch No

Equals

2

And

Or

(Select an operator)

(Enter a value)

OK

Cancel

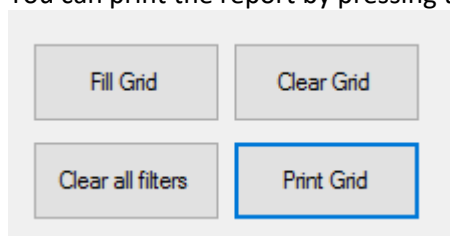

Press the (Custom) option to enter a more specific filter on these values.

Please note: You are only able to see the 'funnel' when you hover over a column heading where it is not already applied.

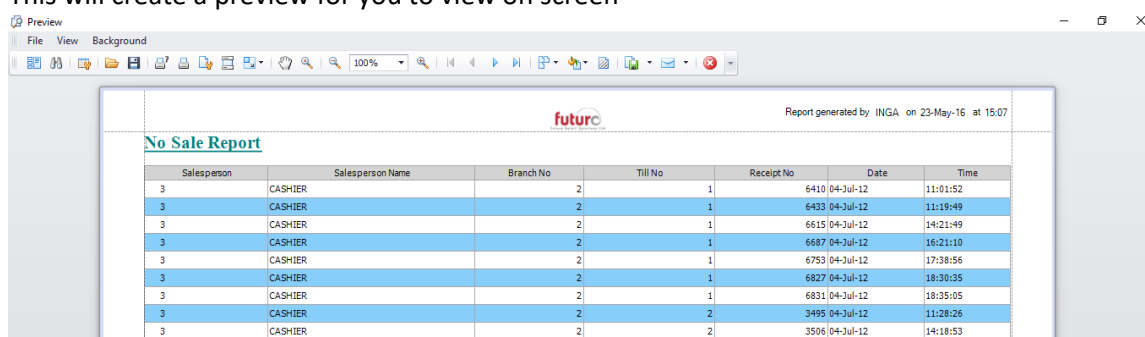

If you can see it without hovering the cursor over the heading, then there is already a filter applied to this column.

Print options

You can print the report by pressing the [PRINT GRID] button

This will create a preview for you to view on screen

From here, you have different options that you can choose from for you print output using the icons across the top of your window.

Please Note: If you hover over the icons, a yellow box will appear to provide a heading for the icon.

To print to a printer:

By pressing one of the printer options, you can print the report on to a piece of paper.

To send via email:

By pressing the envelope, you are able to save the report to an email. By pressing the dropdown arrow, you are able to choose the file output.

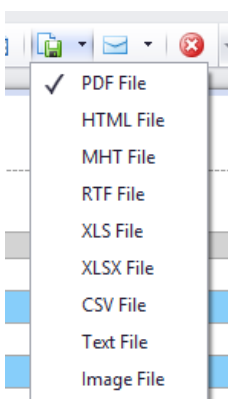

To save as a .PDF:

By clicking on this icon, it will provide you with a list of format options that you could save your report in. The first option is a PDF file.

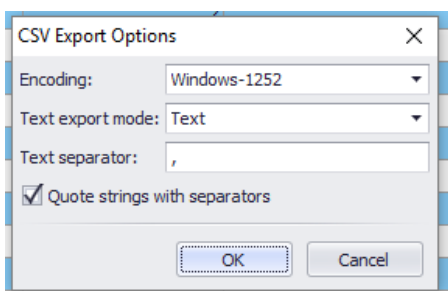

To save to Excel:

By clicking on this icon, it will provide you with a list of format options that you could save your report in. There are options for XLS, XLSX, CSV and Text files.

Depending on what option you pick, you will be presented with a window for further setting control.

You will need to then open the file in Excel. This may need to be done through the 'Import Data From Text' wizard.
